Completed in 1980, the unique Conference and Concert Centre Linnahall is well worth visiting for its unmatched exterior - reminiscent of not just the old bastions surrounding Tallinn's medieval town, but also of ancient Mayan pyramids. Its architects, R. Altmäe and R. Karp, were awarded the President of the International Union of Architects' grand prize and gold medal in 1983. The centre's seaside location, its proximity to the ferry terminal, and the fact that it's a five minutes walk from Old Town make it a popular site. It's Main Concert and Conference Hall is a prime venue for major events including festivals, theatrical performances, concerts, fashion shows, conventions, public meetings, sports events, film showings, and the like. At the moment the centre is under renovation. All capacities are estimated.

The best three classes

When you hear the name 'Hansabuss' or see our logo on the street, various images spring to mind: Jazzkaar concerts, rock stars and high-ranking state guests, but also a simple worker setting out at sunrise.

Hansabuss started in 1996 with only one minibus; by today, it commands a fleet of 80 buses spanning three price classes, all of which represent real driving pleasure no matter what your needs. It has also become the most customer-friendly bus company in Estonia, and probably in all three Baltic states. Since 2005, Hansabuss has been welcoming all guests to Tallinn with the Tallinn City Tour red double-deckers!
